About Fairmate

A leading Indian Multinational Company in the construction chemicals industry, Fairmate is a provider of cost effective solutions & world class services. With an experience of over 3 decades, we ensure that our customers are provided with the best there is. With our offices & manufacturing facilities located in different parts of the world, we provide the most effective solutions in terms of product, quality & price.

Under the constant guidance of our top management Mr. Rakesh Shah & Mr. Bhavesh Shah, Fairmate has created a name for itself in the specialty construction chemical industry. We boast of various successful collaborations & strategic alliances with companies like M/S Resin Building Products Ltd, U.K.

Our clear vision has helped us break boundaries in research & development, which has resulted in the introduction of over 500 products in the Civil Engineering Industry. Not only the best products, we are also known to provide exemplary turnkey solutions. We believe that every project undertaken by us deserves the Fairmate touch, which is nothing but the best.

Always better than the best in quality, services and values

Message from the Management

Fairmate started in 1996 with a vision to provide total customer satisfaction in the Construction Chemical Industry. Fairmate management vouches for the quality of its products and the service it provides to the customer. With the top management's rich experience of more than 60 years, garnered by working from a grassroot level, Fairmate has a deep understanding of the ins and outs of the Construction Chemicals Industry.

Fairmate is what it is due to the beautiful amalgamation of the experience and work ethic of the older generation and the technical expertise, zeal, direct and innovative approach of the new generation. With its rich heritage, exciting present, and promising future, Fairmate, as a brand, is widely known in the construction chemical industry that provides the best, right from the foundation to the finishing solutions.

Team & Training

We conduct regular technical training programmes for our sales team, business associates and clients.

Product Range

We have an array of specialised products for every need. Keeping in mind the urgency for a cleaner & greener environment, we have developed an assortment of products to specifically serve that need.

Concrete Admixture

FAIRCRETE, FAIRFLO & BROCRETE - A wide range of concrete admixtures for increasing workability of concrete which includes normal plasticizers, super plasticizers, retarders, slump retainers & accelerators, etc. It also includes fourth generation concrete admixtures as well as mineral admixtures, fibers and plastering admixtures.

Waterproofing Systems

WATERGUARD - Complete solution for water leakages by crystalline waterproofing, acrylic modified waterproofing coating, polyurethane coating, epoxy coating, waterproofing screeds & instant water plugging compounds. It includes a range of products for waterproofing membranes like APP, SBS, TPO, EPDM, etc.

Engineering Grouts

FLOWGROUT - A wide range of products that are cementitious, epoxy and polyurethane based engineering grouts which have non-shrink, free-flowing and high-strength properties. FLOWGROUT is used for base plate grouting and injection grouting range products. It also includes anchoring grouts for re-bars.

Industrial Floor Surfaces

FAIRTOP & FAIRSCREED - A wide range of products for epoxy, polyurethane & MMA based floor coatings and self-leveling of various categories like high-chemical resistant and food grade. It also includes cementitious & water vapour permeable self-leveling floorings as well as dry shake floor hardeners for heavy to light duty floors.

Concrete Repairs

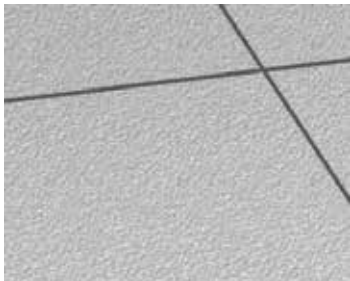

CEMSCREED & FAIRSCREED RANGE OF PRODUCTS - Water based polymer, resin based & cementitious repair system which include micro concrete and polymer modified concrete. It also includes various types of bonding agents for repair of old concrete and new concrete, carbon fiber & glass fiber, retro fitting repair systems.

Range

Surface Treatment

SETRELEASE AND FAIRCURE - A wide range of Surface Treatment products for Civil Engineering application, like mould release agents in concentrated & ready to use form. FAIRCURE range of products includes chemical-based, wax-based & resin-based curing compounds to give effective curing of the concrete.

Sealants

FAIRSEAL RANGE OF PRODUCTS - A polysulphide, polyurethane, acrylic, hybrid, MS polymer, sealant for envelope building for expansion and construction joints for interior & exterior structures. It also includes butyl tapes & expanding tapes for windows and doors. It also includes polyurethane foam for doors and windows.

Pre-Packed Concrete & Mortar

READY PLAST & FAIRFIX - A pre-packed cementitious plaster of different colours for internal & external surfaces. It includes a wide range of tile and stone adhesives which are cementitious & resin based. It also includes a wide range of tile grouts which are available in different colors as well as cementitious & water cleanable resin.

Protective Coating

SAFECORE AND FAIRCOAT RANGE OF PRODUCTS - A wide range of protective & decorative coating based on various epoxy, polyurethane, acrylics and vinyl ester which can be used for industrial floors, steel structures, wall for interior-exterior for protective, chemical & acid resistance and decoration.

Highway Repairs

ROADCRETE RANGE OF PRODUCTS - Varieties of cementitious, polyester, epoxy and bitumen-based road repair systems which has exceptionally quick -repair for bitumen and concrete roads. This system helps to make a quick patch repair and repair of man-hole cover in a short period of time.

National & International Manufacturing Hubs

With our widespread activities around the world, we offer custom made solutions across various geographical locations.

ARCHITECTURAL COATING & FINISHES

A wide range of Italian wall finishing systems like lime based stucco, metallic stucco and various decorative wall finishing systems.

PRODUCT RANGE

1. Fairmate Microcrete - Cement based system for creating high strength and low thickness decorative screeds with smooth finish for walls as well as flooring
2. Fairmate Design Concrete - 3D walls suitable for Interior - Exterior application and paintable with different colours
3. Fairmate Stampcrete
4. Faircoat Screed
5. Faircoat
6. Faircoat Stucco
7. Faircoat Flakes
8. Faircoat Metallic Screed
