INTRODUCTION

FAIRMATE is a Multi-National construction chemicals manufacturing company having offices and manufacturing operations in all the continents of the world like Asia, Europe, USA, Africa etc. FAIRMATE operations are spread across the globe and currently having manufacturing operations in more than 20 countries. FAIRMATE is serving Construction Industry for more than three decades.

FAIRMATE manufactures complete range of construction chemicals and is also providing total cost-effective solutions and World Class Services to Specialty Construction Chemical Industry by using our expertise and strategic alliances with leading partners. We have a primary technical collaboration with Ms Resin Building Products Ltd, UK. Our continuous research and efforts in developing new products have resulted in Introducing more than 400 products in the Civil Engineering Industry. Our products are broadly classified as Concrete Admixture Waterproofing System Engineering Grouts, Industrial Floor Surfaces. Surface Treatment, Concrete Repairs Facing Solutions for Tiles & Stone, Protective Coating. Sealants, Readyplast. Highway Repairs Wall Finish and Liquid Floor.

Fairmate chemicals (pvt) Ltd
Managing director

Message from the Management

Fairmate started in 1996 with a vision to provide total customer satisfaction in the Construction Chemical Industry. Fairmate management vouches for the quality of its products and the service it provides to the customer. With the top management's rich experience of more than 60 years, garnered by working from a grassroots level, Fairmate has a deep understanding of the ins and outs of the Construction Chemicals Industry.

Fairmate is what it is due to the beautiful amalgamation of the experience and work ethic of the older generation and the technical expertise, zeal, direct and innovative approach of the new generation. With its rich heritage, exciting present, and promising future, Fairmate, as a brand, is widely known in the construction chemical industry that provides the best, right from the foundation to the finishing solutions.

TEAM & TRAINING BANGLADESH

We conduct regular technical training programmers for our sales team, business associates and clients.

Seminar on "Awareness of Construction Chemicals and its implementation" organized by the Department of Architecture, **Daffodil International University**. The seminar was facilitated by Engr. Debashis Barua , Managing Director , Fair Mate Bangladesh

Government High Official's , the Exhibition of House Building Research Institute (HBRI), Under Ministry of Public works Department, at Mirpur, Dhaka.

PRODUCT RANGE

We have an array of specialized products for every need. Keeping in mind the urgency for a cleaner & greener environment, we have developed an assortment of products to specifically serve that need.

CONCRETE ADMIXTURE

FAIRCRETE, FAIRFLO & BROCRETE - A wide range of concrete admixtures for increasing workability of concrete which includes normal plasticizers, super plasticizers, retarders, slump retainers & accelerators, etc. It also includes fourth generation concrete admixtures as well as mineral admixtures, fibers and plastering admixtures.

WATERPROOFING SYSTEMS

WATERGUARD - Complete solution for water leakages by crystalline waterproofing, acrylic modified waterproofing coating, polyurethane coating, epoxy coating, waterproofing screeds & instant water plugging compounds. It includes a range of products for waterproofing membranes like APP, SBS, TPO, EPDM, etc

ENGINEERING GROUTS

FLOWGROUT - A wide range of products that are cementitious, epoxy and polyurethane based engineering grouts which have non-shrink, free-flowing and high-strength properties. FLOWGROUT is used for base plate grouting and injection grouting range products. It also includes anchoring grouts for re-bars.

INDUSTRIAL FLOOR SURFACES

FAIRTOP & FAIRSCREED - A wide range of products for epoxy, polyurethane & MMA based floor coatings and self-leveling of various categories like high-chemical resistant and food grade. It also includes cementitious & water vapor permeable self-leveling floorings as well as dry shake floor hardeners for heavy to light duty floors.

PRODUCT RANGE

CONCRETE REPAIRS

CEMSCREED & FAIRSCREED RANGE OF PRODUCTS - Water based polymer, resin based & cementitious repair system which include micro concrete and polymer modified concrete. It also includes various types of bonding agents for repair of old concrete and new concrete, carbon fiber & glass fiber, retro fitting repair systems.

SURFACE TREATMENT

SETRELEASE AND FAIRCURE - A wide range of Surface Treatment products for Civil Engineering application, like mold release agents in concentrated & ready to use form. FAIRCURE range of products includes chemical-based, wax-based & resin-based curing compounds to give effective curing of the concrete

SEALANTS

FAIRSEAL RANGE OF PRODUCTS - A polysulphide, polyurethane, acrylic, hybrid, MS polymer, sealant for envelope building for expansion and construction joints for interior & exterior structures. It also includes butyl tapes & expanding tapes for windows and doors. It also includes polyurethane foam for doors and windows.

PRE-PACKED CONCRETE & MORTAR

READY PLAST & FAIRFIX - A pre-packed cementitious plaster of different colors for internal & external surfaces. It includes a wide range of tile and stone adhesives which are cementitious & resin based. It also includes a wide range of tile grouts which are available in different colors as well as cementitious & water cleanable resin.

INTERNATIONAL MANUFACTURING HUBS

With our widespread activities around the world, we offer custom made solutions across various geographical locations.

OUR WORK'S BANGLADESH

DHAKA METRO RAIL

Dhaka Mass Transit Company Limited (DMTCL), a Bangladeshi state-owned enterprise founded to implement the metro rail lines across Dhaka, is constructing the 20.1-km metro rail line, divided into eight packages, in collaboration with companies from China, Japan and other countries.

MATARBARI POWER PLANT

The Matarbari Power Plant is a 1,200 megawatt (2x600) coal-fired power station under construction in Maheshkhali Upazila of Cox's Bazar District in southeastern Bangladesh.

ROOPPUR NUCLEAR POWER PLANT

The nuclear power plant is being constructed at Rooppur of Ishwardi upazila in Pabna District, on the bank of the river Padma, 87 miles (140 km) west of Dhaka.

OUR WORK'S BANGLADESH

DHAKA AIRPORT: 3RD TERMINAL

Bangladesh will contribute Tk5,000 crore, while Japan's JICA will provide the remaining funds. According to project sources, the terminal is being constructed on 542,000 square metres of land and will have a floor space of 230,000 square metres, 115 check-in counters, 64 departure and 64 arrival immigration desks.
